CALL FOR PAPERS

Resilient Entrepreneurship in Turbulent Times:

Global Cooperation, Trade Barriers and AI for Sustainable SME Growth

Credit: alla_snesar

In collaboration with the 3rd Conference on Economic Growth, hosted by the City Institute of Higher Learning (Canada), this Special Collection explores how entrepreneurship, artificial intelligence, innovation, and international cooperation can strengthen SME resilience and drive sustainable economic growth in an increasingly uncertain global environment.

RELEVANT
Addresses today's global challenges and opportunities for SMEs

INTERDISCIPLINARY
Brings together insights from technology, business, policy, and sustainability

IMPACT-DRIVEN
Promotes resilient, inclusive, and sustainable economic growth

TOPICS OF INTEREST (Include but are not limited to)

- SME resilience and business continuity
- Entrepreneurship in uncertain environments
- AI adoption and digital transformation
- Sustainable entrepreneurship and circular economy models
- Innovation ecosystems and international cooperation
- Governance, leadership, and institutional development
- Trade policy, competitiveness, and economic growth
- Financing innovation and entrepreneurship
- Sustainability reporting and impact measurement
- Regional and global perspectives on SME development

We welcome original research, reviews and practice-oriented contributions from academics, policymakers, industry professionals, and entrepreneurs.
